GRANGE TO TAKE UP CURB MARKET MATTER

Fallowfield Society Will Hold Open Meeting Saturday

LOCAL PEOPLE INVITED

Probable That Members of Business Men's Committee Will Attend

That the members of Fallowfield Grange, No. 1382 are taking an interest in the curb market Charleroi proposes to adopt, and that they will help along the movement most enthusiastically if they find it feasible, is demonstrated by an announcement which they have issued of an open meeting to be held next Saturday, April 13, at Carson's school house. They have invited Charleroi people who are concerned in having the curb market instituted to be present and in addition have extended a general invitation to all others interested.

The meeting will be to explain the methods of selling produce at the curb. Probably some of the members of the Charleroi Business Men's Association, which have been working up the plan will attend. The Fallowfield Grange is rapidly becoming one of the largest and most important in this part of the State. The members are interesting themselves in various matters that affect themselves and the people generally.

Trinder-Smiley.
Roy Trinder and Miss Bessie U. Smiley of Fallowfield township were married on last Saturday by Rev. F. A. Richards at his parsonage on Lincoln avenue. They will make their home in Fallowfield. The groom is the son of A. F. Trinder of Fallowfield and the bride is the daughter of Lot Smiley.

CELEBRATES HER 93RD BIRTHDAY

In good health, and enjoying life with the cheerfulness of a person one-third her age, Mrs. Francis Rice celebrated her 93rd birthday at her home in Sandy Lake, Mercer county last week. Mrs. Rice is the mother of Justice of the Peace E. E. Rice of Charleroi. In appearance Mrs. Rice is many years younger than her given age. She credits her longevity partly to an evenly balanced temperament and the abounding cheerfulness of an ambitious young person.

Cotton.
The infant daughter of Mr. and Mrs. Gust Cotton died Tuesday morning at 9 o'clock. The funeral was held at 2 o'clock this afternoon. Interment was in Calvary cemetery.

Rob Station Slot Boxes

Burglars Effect Entrance to Monessen Passenger Depot and Take Pennies

Some time after nine o'clock Tuesday night and this morning the Monessen P. & L. E. passenger station was entered and slot machines looted. A quantity of candy and other materials were removed and pennies that were in the slot boxes were taken. It is believed by the police that the burglary was committed by boys. They pried open a window to effect an entrance.

LICENSES NUMEROUS

Clerk of Courts Reports 1,063 for the Year in This County

MAKES STATE REPORT

Clerk of Courts W. S. Lockhart has just forwarded to the bureau of vital statistics of the department of health Samuel C. Dixon, Commissioner at Harrisburg a record of the marriage licenses issued and the returns made for the year 1911.

Of the licenses issued the past year 948 were regular, that is, they were used and showed returns of marriage from minister or justice performing the ceremonies. Twelve licenses were returned unused. There were 67 in which there were no returns or marriage having been performed, making the total issued 1,063. The number not certified is very likely due to the neglect of the minister or justice in certifying the marriage, as is required by law.

A certificate accompanies every license, which a minister or justice is required to fill out following a marriage this to be returned to the clerk of courts and the same transcribed on the docket with the marriage license. A fine of \$50 is provided for the non return of a marriage certificate within 30 days.

Shields Refused New Trial.

The Supreme Court in Philadelphia on Saturday refused to allow an appeal in the case of County Commissioner John E. Shields of Westmoreland county, under sentence for embezzlement and allowing prisoners to escape during his term as sheriff. In the face of these charges Shields was elected commissioner of Westmoreland county at the last election.

EXTEND TIME LIMIT OF WATER CONTRACT

North Charleroi Finally Passes Ordinance Calling for Ten Years' Extension-- Another Ordinance Considered

An ordinance extending the contract with the Charleroi Water company 10 years was finally passed by the North Charleroi council at a meeting Monday night. The last contract expired on November 11, 1911, and the new contract will date to November 11, 1921. In effect the contract is practically the same as that held by Charleroi borough with the Charleroi Water company. An ordinance was finally passed granting the Lock No. 4 Brick company the right to build a trestle over the street at their plant on McKean avenue. The two ordinances were ordered printed.

The tax levy for the ensuing year will be 13 mills, the same as last year. Eleven of this will be for general expenses and the two mills will be for the sinking fund. Bills to the extent of \$120 were ordered paid. Adjournment was taken to meet again April 16.

Councilmen Samuel Gaskill, John Myers, Davis Woodward and T. P. Sloan were present at the meeting.

START WORK ON CHURCH EDIFICE

Contractors for St. Jerome's Superstructure to Start Brick Laying

Work is being started in earnest this week by the Duquesne Construction company on the erection of the superstructure of St. Jerome's Catholic church at the corner of Seventh street and Washington avenue. Scaffolding has been erected and it is probable the first brick laying will be done on Thursday. General Manager Gallagher of the construction firm has arrived on the scene to assume direct supervision. It is stated that building operations will not interfere with the regular church services which are held in the substructure of the church.

Marriage licenses have been granted to John W. Watkinson of Speers and Miss Adeline Goddard of Charleroi and to Joseph Lipton of Ford City and Miss Phyllis Dean of Charleroi.

MAY ARRANGE SPECIAL TRAIN

Knights Templar Plan Trip to Pittsburgh to Attend Annual Conclave

Special trains from all directions will convey Knights Templars and their ladies to Pittsburgh on April 24, the date of their annual tour to be held at the Exposition building. This will be the big society event of the year among Western Pennsylvania Knights Templar commanderies. If enough members of McKean Commandery No. 80 of Charleroi will go a special train will be run from Pittsburgh here after the affair is over. Local committeemen are working hard in the interests of the affair. It is expected that 8,000 persons will attend the tour, which will precede but a few weeks the grand conclave to be held in Pittsburgh.

THIRTY DAYS FOR ATTACKING PRIEST

Two Italians Sentenced to Jail for Disturbing Religious Service

Because they took exception to certain comparisons made, it is said by Rev. Joseph Danele pastor of the Mother of Sorrows Italian church in his Easter Sunday morning sermon, Giuseppe Maslingioli and Gaetano Mascio are to spend 30 days each in jail. The two pleaded guilty before Justice of the Peace E. E. Rice Tuesday night charged with disturbing a religious meeting and assault and battery, and sentence was imposed. For disorderly conduct they had been fined \$10 and costs previously by Burgess George W. Riskbeck. It is alleged the two men charged Rev. Danele with misstatements when he said that Italian laws did not mention the name of God when American laws did. When the priest attempted to pacify them it is claimed they assaulted him.

SUBSCRIPTION DANCE GIVEN

Enjoyable Affair Held by Committee-Out-of-Town People Attend

With the hall prettily decorated and with beautiful appointments the second subscription dance of the winter and spring season was given by a committee of young men in the Night auditorium Tuesday evening. About 40 couples were present.

Dancing was from 8:30 until 2 o'clock. Guonod's orchestra from Pittsburgh furnished the music.

In the center of the hall was arranged a pagoda. Leading to this from various parts of the room were green and white streamers. At one end there was a bank of palms, forming a cozy corner. Lunch which was prepared by an expert caterer was served. Out-of-town guests were present from Uniontown, Harrisburg, Brownsville, Monessen, Pittsburgh, Conora, Monongahela and other points.

The committee arranging the affair was composed of Charles S. Bateman, Roland W. Brown, George W. Cooper, Sam E. Endress, J. Clive Enos, Hugh E. Fergus, E. W. Hastings, S. Walton Sharpnack, George H. Smith and Ewing B. Todd.

In all 225,000 trees are to be planted.

VICTORY CLAIMED

Feehan Supporters Get Election Scrap Before Chief Board

IS OPPOSED BY HALAPY

President Francis Feehan and his supporters gained a decided victory over Michael Halapy and his followers Tuesday when the convention of District No. 5, United Mine Workers decided by a vote of 102 to 81 to refer the contested district referendum election of officers to the international board as he claimed, in accordance with the constitution. Halapy pleaded that the convention take up the investigation. That there will be no appeal whichever way the vote is decided was the declaration of supporters of both factions.

Many delegates entered the debate Tuesday, among them being William McKay, Frank Gainer, George Dager, James Charlton, Michael Maracinni, John Fagan, Frank Fenley, and James Oates, the latter from Charleroi.

FORD CITY MAN AND CHARLEROI YOUNG WOMAN WED

At St. Jerome's Catholic church this morning the wedding of Miss Phyllis Dean, the daughter of Mr. and Mrs. John Dean of Charleroi and Joseph Liptow of Ford City. Rev. W. D. Fries performed the ceremony. The couple were attended by James Barnett and Mrs. Anna Dean Claybaugh. Mr. and Mrs. Liptow will remain here for a few days and then go to Ford City, where they will live.

The ceremony was witnessed by several of the friends of the couple. Among them were the parents of the groom, Mr. and Mrs. Frank Liptow of Ford City.

Mrs. Frank Jenkins of Braddock is visiting a few days with her parents, Mr. and Mrs. C. C. Holyfield of Fallowfield avenue. 212-12

West Penn Electric Company Institutes Novel Feature

EXPOSITION ATTRACTS

Electric Show Drawing Big Crowds--Illustrate Uses of Two Kinds of Lights

Attracting like interest with the electric exposition being held at the basketball hall this week by the West Penn Electric company is that of a slogan for the borough of Charleroi. A contest has been inaugurated by the West Penn Electric company to obtain the best slogan possible for the borough, the Charleroi Business Men's Association to make the final selection. To the person submitting the best slogan an electric iron is to be awarded.

There was an increase of interest in the show at the basketball hall Tuesday afternoon and evening. Attendees were kept busy explaining the use of various articles on display.

One thing that has attracted unusual interest is the comparison of the new Tungsten burner with the old carbon electric light. These two lights are set side by side, with a meter placed so people can see for themselves the amount of electricity that is being consumed. The difference is so great that it is almost ludicrous. With lights of each make burning with brilliancy of 100 candle power, the Tungsten furnishes a brighter and better light with the use of less than one half the power of the carbon lights.

Children are not being admitted during the regular opening hours unless accompanied by their parents or guardians. It is probable that a special time will be set apart for them to visit the show.

Many are coming from out of town to see the exposition.

MUST SUFFER FOR NEGLECT

Man will be held accountable for neglect in the same sense that he will be held accountable for voluntary wrong doing to his fellow men, was in effect the statement made by Rev. D. L. Schultz, labor evangelist at the First Baptist church in his sermon Tuesday evening. His theme in general was that of accountability to a divine power.

He said that God will hold people accountable for things they don't know if they have a chance to learn and don't try to find out, but he won't hold them accountable for things they can't find out. He deplored the lack of "sight" that makes it impossible for us to see the sufferings of our fellow men. "Hell is the place for those men and women who are making a hell on earth for boys and girls," Rev. Schultz declared, in speaking of labor conditions among children.

The grandest and most dazzling first part ever seen in Charleroi is with the Colonial Minstrels, auspices of the P. H. C. in Turner Hall, April 22 and 23. 212-12

WHY INTERRUPT IT?

In spite of the uncertainties inci-
dent to a Presidential campaign, there
are signs that prosperity is tugging
at the leash, and will really break
loose again if the people will but let
it. There has been so much agita-
tion and business uncertainty during
the past three years that every in-
terest has held back and only done
what was absolutely necessary in
order to hold their ground or keep
going. Now there are signs on
every hand that the wheel of in-
dustry will revolve more rapidly if
but half a chance is given the various
interests in the way of promised
stability.

This is the reason why there
should be no change of administra-
tion. The Government is a huge
work shop and if its routine is bro-
ken up by a complete change and
re-organization together with a pos-
sible change of policy which Con-
gress must enact, it will require an-
other waiting period of four years or
more. Things cannot become settled
and a fixed policy established until
another Presidential campaign
upon us, involving another de-
lay. Now, however, if the present admi-
nistration is continued without inter-
ruption, there promises to be four
years at least of increased prosperity,
due to the accumulated demand for the
development of the resources also en-
ergy held back during the past
agitation.

President Taft is a safe and sane
executive. He is honest and sincere
in his desire to do right by the
whole people, and is doing all that is
in the power of an executive for the
public welfare. A change will only
bring chaos and confusion for a year
and if the voters realize their best in-
terests they will vote for the Taft
delegates to the State and National
conventions at the primary election
next Saturday.

A WORTHY PROJECT

It has been suggested to the Mail by
a prominent citizen that a children's
flower and vegetable show be held
later at the proper season. An
effort is being made to encourage the
cultivation of flowers and vegetables
by the school children, and in this
connection Superintendent Pentz has
furnished seeds to the children at a
minimum price. The idea is to not
only provide interesting and healthy
occupation for children during the vaca-
tion season, and keep them out of
mischief, but to help provide fresh
vegetables and flowers for their fami-
lies or to sell to the public.

It has been proposed that the Play-
grounds Association employ a man
who can look after the grounds; and
in addition give the children who de-
sire it instructions in gardening and
oversee their work. In this connection
the citizen who advocates the
flower and vegetable show thinks
that the project will be a stimulus
to the children, and an incentive to
exert themselves in the direction of
producing things. By offering cash
prizes for best results to be judged
at the exhibit, it is believed that much
interest can be aroused. Already one
or two citizens have expressed their
willingness to donate cash prizes, or
winners in their respective neighbor-
hoods, and it is believed that others
will do likewise if the project is un-
dertaken and carried out. These ex-
hibits are held in other communities
very successfully and have had a de-
cided effect in stimulation the cultiva-
tion of vegetables and flowers by the
children during the vacation season.

STATES THE TRUTH

Richmond Hill, L. I.—Albert Por-
ter, who has lived here for some time,
believes that when a man in bad
condition, it is his duty to let
the world know.

All winter I had a bad
cold and a cough when I could not
get off. I was badly run down be-
cause of it. I started using Vinol
and in a very short time I was
back to my normal condition. This
shows that Vinol will do for
anyone in that condition and I
strongly recommend it to everyone.

The reason Vinol is a delicious cod
liver oil and is prepared without
oil, cured by Dr. Porter is because it
is a natural product of the
tropical regions, weakened, run-
down condition. Its curative, blood-
enriching and strengthening prop-
erties built up his health and his cough
disappeared as a natural result.

We guarantee that Vinol will do

money if Vinol does not satisfy you.

PICKED UP IN PASSING

"John Marron, the distinguished

pices of the local council of Knights
of Columbus, was asked by M. T.
Crowley, one of the local committee
who is making the arrangements,
something about himself that might
be announced in a prospectus of the
lecture.

"I am a moderate Democrat," said
Mr. Marron, and vote with my party

Nation, State and city. I believe in
the old-fashioned God, heaven and

Those who attended a banquet
given by the Monongahela Chamber

remember the stirring address given
by Mr. Marron in response to the
toast, "The City."

"We picked up a lady's hand bag on

trainman, "and as there was no dis-
tinguishing mark on the outside we
opened it. What do you suppose it
contained? Nothing but a package
of Bull Durham tobacco and a bunch

the majority of us were of the opin-
ion that the article was the property
of some theatrical woman, or one
well on in the ways of the world.
"When a 16-year old school girl,

for Distribution

A History of the Civil War, pro-
fusely illustrated with reproductions
of the \$150,000 Brady War Photo-
graphs, "taken on the spot," is being
distributed to its readers by The
Pittsburg Dispatch. The work is
divided into 16 parts—one part be-
ing furnished each week for only 10
cents with a coupon cut from The
Sunday Dispatch. (If to be sent by
mail, 13 cents and a coupon.)

The first coupon was printed April
7, and the distribution of part one be-
gan Monday, April 8.

The second coupon (for part 2) will
be printed Sunday, April 14 and dis-
tribution of part 2 will begin Mon-
day, April 15 and so on until the dis-
tribution of the 16 parts is complete.
To accommodate those who did not
have an opportunity to get coupon of
April 7, part one will be supplied for
the same price to any who presents
this article instead.

The regular coupon from The Sun-
day Dispatch will be required for all
sections after No. 1.

The famous Brady War Pictures
alone are worth the price. The work
is highly educational and a set should
be in every American home. Don't
miss this wonderful work. Remember
it costs only 10 cents a part (13
cents by mail) and a coupon clipped
from The Sunday Dispatch.

THE PRESIDENT'S ECONOMY RECORD

Taft Insists That Government Be Run on Sound Business Basis.

HIS PROGRESSIVE POLICY.

His Personal Efforts to Reduce Cost of Efficient Service Bring Results—Business Methods Applied—Economy and Efficiency Commission Fought by Democrats.

President Taft more than any of his predecessors in the White House has given strict attention to placing the government upon a business basis as regards its receipts and expenditures. Economy and efficiency became one of the cardinal policies of his administration as soon as he entered upon the presidency, and it was well for the country that this was so, for his administration inherited a deficit in the treasury of \$38,000,000, which has now been transformed into a surplus of \$30,000,000. The average citizen and taxpayer will be interested in this fact, because the problem which confronted the president at the outset, although upon a gigantic scale, was similar to that of the ordinary shopkeeper or business man, farmer or wage earner or even housewife who is called upon to make "both ends meet" either in business or in the home.

By law the secretary of the treasury is called upon every year to submit to congress in December the "estimates" of governmental expenditures for the next fiscal year, beginning the following July 1. As congress has to provide the money to run the government, the money has to be appropriated for specific purposes before it can be expended, and if this were not done before the beginning of the fiscal year the machinery of government would stop unless emergency provision could be made.

How Estimates Are Made.

The "estimates" are prepared by the executive departments of which each member of the cabinet is a head. The cabinet officers get the "estimates" in their respective departments from their chiefs of bureaus and then combine them as the "estimates" for the department. The "estimates" from all departments are then sent to the secretary of the treasury to be submitted to congress, and they then become the "estimates" for the cost of running the entire government during the next fiscal year. Upon these figures congress makes the greater part of its appropriations, amounting to more than \$1,000,000,000 annually.

Until 1903 a more or less lax method of making estimates for the annual appropriations obtained throughout the government. The figures sent to congress each year, instead of showing indications of a careful "pruning" all along the line, showed there was a disposition among the departments to vie with each other in getting as large appropriations as possible without considering whether or not the money demanded could be advantageously expended during the coming year. There was no standardization of supplies, and the various departments were paying varying prices for the same article.

What President Taft Did.

As soon as President Taft took office this system ceased. At the outset President Taft impressed upon his cabinet officials the absolute necessity of economy and efficiency in their departments. He admonished them that not a dollar beyond what was necessary to

THE RECALL OF A DECISION.

run the government efficiently in their departments, including a fair margin for progress, which is a part of efficiency in the program of President Taft, should be asked of congress. The effect was immediate. Every department began work at once to investigate its own expenditures and to devise ways and means of curtailing extravagances. The result was that congress received the lowest estimates it had seen in years. This was followed by a reduction in appropriations to correspond, always allowing for the natural growth of the government's activities, which represented a net saving to the taxpayers of the country.

President Taft was not, however, satisfied that all had been done that could be done. He realized that the departments of the government, like individuals, are naturally prone to be proud of their own achievements and by reason of their familiarity with their own endeavors often insisted that their work was more important than the work of the other departments, relatively speaking. In order to correct that evil he asked congress to give him \$100,000 for a commission of disinterested experts to investigate and report on the business of the government, with a view to further economy and efficiency. Thus came into official being the commission of that name.

This commission, among other duties, was directed to prepare the receipts and expenditures of the government on a "budget" basis, which is the system followed by practically all the leading nations of the world except the United States. Under this system it is possible for the humblest citizen to analyze the finances of the government at any time and to lay his finger upon the responsible political party in the event of extravagance or of stinginess. The system under which appropriations for the government of the United States have been made has even defied the experts in their endeavors to unravel the tangled skeins of expenditures, so that it is a fair statement to say that no citizen of this country up to the present time has ever thoroughly understood where his taxes were expended.

The President's Position.

At the present time the Democratic house of representatives is endeavoring to end the usefulness of the econ-

omy and efficiency commission by cutting off its appropriations. In a recent appeal to congress for funds to continue the great work it has begun, which all thinking men and women will approve, President Taft pointed out that the people of the country as a whole are interested chiefly in the following governmental objects: The national defense, the protection of persons and property, the promotion of friendly relations and the protection of American interests abroad, the regulation of commerce and industry, the promotion of agriculture, fisheries, forestry and mining, the promotion of manufacturing, commerce and banking, the promotion of transportation and communication, the postal service, including postal savings banks and parcels post; the care and utilization of the public domain, the promotion of education, art and science and recreation; the promotion of public health and the care and education of the Indians and other wards of the nation. There are many other public questions, of course, but these are the vital and comprehensive ones, and the "budget" is proposed for the purpose of giving information as to the needs of these matters. The president, in order that his policy of economy and efficiency may be concluded and become one of the greatest achievements of his administration—that of placing the government on a business basis—wants congress to appropriate \$250,000 more for the support of the commission now doing that work.

The economy and efficiency commission has already saved to the taxpayers of the country more than \$3,000,000 annually by its suggestions and by the time it has completed its work it is believed ten times this sum can be saved annually to the taxpayers. In the matter of railroad fare for government officials alone it has found that \$12,000,000 was expended in a single year at the highest prevailing railroad rates. At least a fourth of this can be saved by the application of business methods such as President Taft has applied and has insisted shall be applied to all the departments of the government.

PATTERSON ON THE RECALL OF THE JUDICIARY

Thomas Patterson, Esq., one of Pennsylvania's most distinguished jurists, in a recent public address before the Taft Club of Pittsburgh, discussed the proposition of recall of the judges with such clearness and conviction that every man who is going to vote at the primaries on April 13th ought to read what he says before going to the polls.

If any one will write to the Secretary of the Taft Club, 323 Fourth avenue, Pittsburgh, a copy of this great discourse will be mailed him.

In the meantime the following extract will give an idea of the character of Mr. Patterson's address:

Mr. Patterson's Powerful Arraignment

"There is a doctrine which is now being pressed forward with great energy in certain quarters, and that is the recall of the judges. It is a doctrine which is so new, so unorthodox, so revolutionary, that it is difficult to discuss it. What protection has the individual who happens at the time to be of the minority, if the judge who decides his case, must consider not what is the law applicable, but what decision will be the most popular? Law, necessarily, is matter of precedent and rule. It would be so under any system of government that is government at all. Men must have rules for governing their conduct that are tried and known. The individual case can only be dealt with in accordance with precedent and principle. To compel the judge to decide the case, not upon the law, but upon what is the popular wish, at any particular time, would be to absolutely destroy his efficacy as a judge. Majorities do not need protection; they protect themselves. It is the minority, the people who are mismanaged or unpopular that need protection, and so many decisions of our judges that were unpopular with the majority at the time they were made, have afterwards proved to be sound and the correct interpretation of the law, that I scarcely need to refer to them. It is for this, among other reasons, that constitutions are framed and judges exist. To destroy this system is to end the stability of our institutions, and to destroy the balance which men rightfully have in the protection of the law."

Tribute to the Judiciary

"It is the fashion now to criticize and find fault with the judges, and the judges are at all times most helpful under criticism for they may not reply. No one claims that they are infallible, least of all those who daily practice before them. They make mistakes as other men. Nevertheless, I believe the American people will concern fully in a statement that in public life today there is not a body of more loyal and conscientious men—men—always the officers of our army and navy—than the judiciary. For such evils as may exist the remedy is not more politics, but less politics. They should be taken out of politics altogether, as they were in the days of John A. Bingham. Do not make them come to heel at the call of the politicians."

For rest of this speech and a number of other masterly discussions of questions of the hour call at the Taft Club of Pittsburgh, 413 Fifth Ave., next door to the Hotel Henry.

At the same time add your name to the thousand who have already come out for President Taft and his just claims upon us for another term.

The Taft Club of Pittsburgh urges you, regardless of party affiliations or factional alignments, to go into the coming primaries and to vote for those delegates to state and national conventions who are pledged to support the candidacy of William Howard Taft.

Very truly yours,

The Taft Club of Pittsburgh

An old lady and her daughter stopped outside the Lyceum theater to study the announcement concerning the pantomime. "Who's the gal as plays the lover?" asked the old lady. "Jane Eyre," replied the daughter. "Jane Eyre!" exclaimed the old lady in amazement. "Well, what part, for goodness sake, does East Lynne play?"—London Opinion.

For Women Who Care

Of course you use an antiseptic in your family and in the care of your own person, and you want the best. Instead of what you have been using such as liquid or tablet antiseptics or peroxide, won't you please try Paxtine, a concentrated antiseptic powder to be dissolved in water as needed. Paxtine is more economical, more cleansing, more germicidal and more healing than anything you ever used.

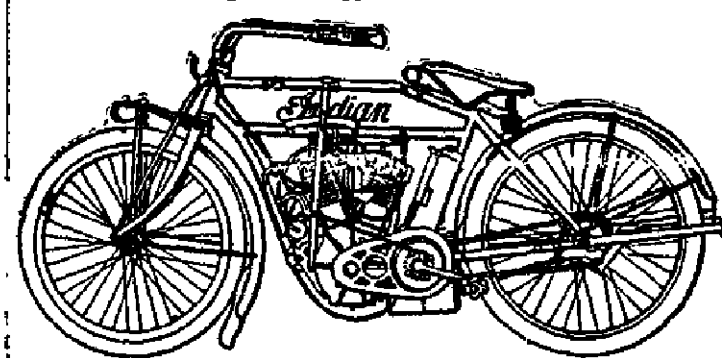

Paxtine
ANTISEPTIC

In the toilet—to cleanse and whiten the teeth, remove tartar and prevent decay. To disinfect the mouth, destroy disease germs, and purify the breath. To keep artificial teeth and bridgework clean and odorless. To remove nicotine from the teeth and purify the breath after smoking. To eradicate perspiration odors by sponge bathing.

As a medicinal agent for local treatment of feminine ills where pelvic catarrh, inflammation and ulceration exist, nothing equals hot douches of Paxtine. For ten years the Lydia E. Pinkham Med. Co. has been regularly advising their patients to use it because of its extraordinary cleansing, healing and germicidal power. For this purpose alone Paxtine is worth its weight in gold. Also for nasal catarrh, sore throat, inflamed eyes, cuts and wounds. All druggists, 25 and 50 cents a box. Trial box and testimony of 31 women free on request.

CLEANING WITH The MAGIC eliminates all of the fatigue and annoyance of house-cleaning by other means--no need of upsetting the home--moving carpets, rugs, furniture, etc.

WORTH ITS COST for sanitary reasons alone. Millions of germs lurk with the dust in carpets, rugs, etc. It is your duty to guard the health of yourself and family by removing every possible source of contamination.

PAYS FOR ITSELF--saves time, labor and household furnishings. Most of the damage and wear of carpets, rugs, etc. is caused by sweeping, beating and friction of grit and dust underfoot, which cuts and grinds off the fabric and which cannot be removed by broom or sweeper. The MAGIC positively removes all dirt on and in them without injury and prolongs their life.

If you haven't seen the Magic, see it demonstrated at the Electric Show or have it shown to you at the store.

The Feeney Hand Machine excels all other hand machines, in ease of operation and amount of suction given. So simple and well built as to be practically indestructible. A good, inexpensive cleaner for those who do not have electricity.

SUES BOROUGH FOR LICENSE FEE

Marian Goldstein, a merchant of Donora, claims that her agent, J. Goldstein was compelled by the borough officers of Donora to pay a yearly license of \$200. This was March 9, 1912. She declares that she pays a yearly mercantile tax and that the borough of Donora has no right to collect such a tax from her. She will try and show in court that she is doing a permanent business and not that of a transient or an auctioneer and should not be subject to the borough ordinance in question.

PLATE GLASS CLUB ORDER IS SIGNED

In the matter of dissolution of the Plate Glass Workers' Beneficial association of Charleroi the court has signed the decree allowing the same. It is the intention of the association to dispose of its belongings by auction.

Best He Could Do.

When Ralph Delmore, who was assisting in staging "The Confession," was giving instructions one day to the actors as to what they should wear during the snow storm in the first act, he said: "I want every one to wear their heaviest overcoats during this scene, as it is supposed to be the coldest night in twenty years. Now, don't forget this." Mr. Delmore repeated this order several times to impress it on the minds of the actors, when one of them, undoubtedly new to the stage and who had no lines at all to speak, approached him. "I have no overcoat, Mr. Delmore, but suppose I wear my heavy flannel underwear?" Kansas City Star.

A German Poser.

That the German authorities can so far unbend as to propound conundrums is only another proof of how little we know our Teutonic relations. In the census papers now being distributed, however, they ask: "If you do not know the date of your birth, how many years old are you?" Which is more humorous and at least as intelligible as "Why is a mouse when it spins?" London Black and White.

GRANGE TO TAKE UP CURB MARKET MATTER

Fallowfield Society Will Hold Open Meeting Saturday

LOCAL PEOPLE INVITED

Probable That Members of Business Men's Committee Will Attend

That the members of Fallowfield Grange, No. 1332 are taking an interest in the curb market Charleroi proposes to adopt, and that they will help along the movement most enthusiastically if they find it feasible, is demonstrated by an announcement which they have issued of an open meeting to be held next Saturday, April 13, at Carson's school house. They have invited Charleroi people who are concerned in having the curb market instituted to be present and in addition have extended a general invitation to all others interested.

The meeting will be to explain the methods of selling produce at the curb. Probably some of the members of the Charleroi Business Men's Association, which have been working up the plan will attend. The Fallowfield Grange is rapidly becoming one of the largest and most important in this part of the State. The members are interesting themselves in various matters that affect themselves and the people generally.

LICENSES NUMEROUS

Clerk of Courts Reports 1,063 for the Year in This County

MAKES STATE REPORT

Clerk of Courts W. S. Lockhart has just forwarded to the bureau of vital statistics of the department of health Samuel C. Dixon, Commissioner at Harrisburg a record of the marriage licenses issued and the returns made for the year 1911.

Of the licenses issued the past year 948 were regular, that is, they were used and showed returns of marriage from minister or justice performing the ceremonies. Twelve licenses were returned unused. There were 67 in which there were no returns or marriage having been performed, making the total issued 1,063. The number not certified is very likely due to the neglect of the minister or justice in certifying the marriage, as is required by law.

A certificate accompanies every license, which a minister or justice is required to fill out following a marriage this to be returned to the clerk of courts and the same transcribed on the docket with the marriage license. A fine of \$50 is provided for the non return of a marriage certificate within 30 days.

EXTEND TIME LIMIT OF WATER CONTRACT

North Charleroi Finally Passes Ordinance Calling for Ten Years' Extension-- Another Ordinance Considered

An ordinance extending the contract with the Charleroi Water company 10 years was finally passed by the North Charleroi council at a meeting Monday night. The last contract expired on November 11, 1911, and the new contract will date to November 11, 1921. In effect the contract is practically the same as that held by Charleroi borough with the Charleroi Water company. An ordinance was finally passed granting the Lock No. 4 Brick company the right to build a trestle over the street at their plant on McKean avenue. The two ordinances were ordered printed.

The tax levy for the ensuing year will be 13 mills, the same as last year. Eleven of this will be for general expenses and the balance will be for the sinking fund.

Bills to the extent of \$120 were ordered paid. Adjournment was taken to meet again April 16.

Councilmen Samuel Gaskill, John Myers, Davis Woodward and T. P. Sloan were present at the meeting.

START WORK ON CHURCH EDIFICE

Contractors for St. Jerome's Superstructure to Start Brick Laying

Work is being started in earnest this week by the Duquesne Construction company on the erection of the superstructure of St. Jerome's Catholic church at the corner of Seventh street and Washington avenue. Scaffolding has been erected and it is probable the first brick laying will be done on Thursday. General Gallagher of the construction firm has arrived on the scene to assume direct supervision. It is stated that building operations will not interfere with the regular church services which are held in the substructure of the church.

Plant Oaks in Watershed

Many Trees Placed in Mountain Ravines to Prevent Stream Giving Out

The Mountain Water Supply Company, which supplies the Pennsylvania Railroad company with water through a 36-inch line extending from Indian Creek to Pittsburgh is planting 90,000 seedling oaks on its property in the Indian Creek Valley to protect the watershed, which is being denuded rapidly of forests. In all 225,000 trees are to be planted.

VICTORY CLAIMED

Feehan Supporters Get Election Scrap Before Chief Board

IS OPPOSED BY HALAPY

President Francis Feehan and his supporters gained a decided victory over Michael Halapy and his followers Tuesday when the convention of District No. 5, United Mine Workers decided by a vote of 102 to 81 to refer the contested district referendum election of officers to the international board as he claimed, in accordance with the constitution. Halapy pleaded that the convention take up the investigation. That there will be no appeal whichever way the vote is decided was the declaration of supporters of both factions.

Many delegates entered the debate Tuesday, among them being William McKay, Frank Gainer, George Dagg, James Charlton, Michael Maracinni, John Fagan, Frank Fenley, and James Oates, the latter from Charleroi.

FORD CITY MAN AND CHARLEROI YOUNG WOMAN WED

At St. Jerome's Catholic church this morning the wedding of Miss Phyllis Dean, the daughter of Mr. and Mrs. John Dean of Charleroi and Joseph Lipton of Ford City. Rev. W. D. Fries performed the ceremony. The couple were attended by James Barnett and Mrs. Anna Dean Claybaugh. Mr. and Mrs. Lipton will remain here for a few days and then go to Ford City, where they will live. The ceremony was witnessed by several of the friends of the couple. Among them were the parents of the groom, Mr. and Mrs. Frank Lipton of Ford City.

West Penn Electric Company Institutes Novel Feature

EXPOSITION ATTRACTS

Electric Show Drawing Big Crowds--Illustrate Uses of Two Kinds of Lights

Attracting like interest with the electric exposition being held at the basketball hall this week by the West Penn Electric company is that of a slogan for the borough of Charleroi. A contest has been inaugurated by the West Penn Electric company to obtain the best slogan possible for the borough, the Charleroi Business Men's Association to make the final selection. To the person submitting the best slogan an electric iron is to be awarded.

There was an increase of interest in the show at the basketball hall Tuesday afternoon and evening. Attendees were kept busy explaining the use of various articles on display.

One thing that has attracted unusual interest is the comparison of the new Tungsten burner with the old carbon electric light. These two lights are set side by side, with a meter placed so people can see for themselves the amount of electricity that is being consumed. The difference is so great that it is almost ludicrous. With lights of each make burning with brilliancy of 160 candle power, the Tungsten furnishes a brighter and better light with the use of less than one half the power of the carbon lights.

Children are not being admitted during the regular opening hours unless accompanied by their parents or guardians. It is probable that a special time will be set apart for them to visit the show.

Many are coming from out of town to see the exposition.

MUST SUFFER FOR NEGLECT

Man will be held accountable for neglect in the same sense that he will be held accountable for voluntary wrong doing to his fellow men, was in effect the statement made by Rev. D. L. Schultz, labor evangelist at the First Baptist church in his sermon Tuesday evening. His theme in general was that of accountability to a divine power.

He said that God will hold people accountable for things they don't know if they have a chance to learn and don't try to find out, but he won't hold them accountable for things they can't find out. He deplored the lack of "sight" that makes it impossible for us to see the sufferings of our fellow men. "Hell is the place for those men and women who are making a hell on earth for boys and girls," Rev. Schultz declared, in speaking of labor conditions among children.

WHY INTERRUPT IT?

In spite of the uncertainties in-
cident to a Presidential campaign, there
are signs that prosperity is turning
at the leash, and will really break
loose again if the people will but let
it. There has been so much agita-
tion and business uncertainty during
the past three years that every in-
terest has held back and only done
what was absolutely necessary in
order to hold their ground or keep
going. Now there are signs on
every hand that the wheel of in-
dustry will revolve more rapidly if
but half a chance is given the various
interests in the way of promised
stability.

This is the reason why there
should be no change of adminis-
tration. The Government is a huge
work shop and if its routine is broken
up by a complete change and
re-organization together with a pos-
sible change of policy which Con-
gress must enact, it will require an-
other waiting period of four years or
more. Things cannot become settled
and a fixed policy established until
another Presidential campaign
upon us, involving another ad-
ministration. Now, however, if the present admin-
istration is continued without inter-
ruption there is no reason to be
fearful of a period of at least of
years at least of increased prosperity
due to the accumulated demand for
development of the resources and en-
ergy need since during the past
agitation.

President Taft is a safe and sane
executive. He is honest and sincere
in his desire to surrender to the
whole people, and is doing all that
is in the power of an executive for the
public welfare. A change will only
bring chaos and confusion for a time
and the voters realize their best in-
terests they will vote for the Taft
delegates to the State and National
conventions at the primary election
next Saturday.

A WORTHY PROJECT

It has been suggested to the Mail by
a prominent citizen that a children's
flower and vegetable show be held
later at the proper season. An
effort is being made to encourage the
cultivation of flowers and vegetables
by the school children, and in the
connection Superintendent Pentz has
furnished seeds to the children at a
minimum price. The idea is to not
only provide interesting and healthy
occupation for children during the va-
cation season, and keep them out of
mischief, but to help provide fresh
vegetables and flowers for their fami-
lies or to sell to the public.

It has been proposed that the Play-
grounds Association employ a man
who can look after the grounds; and
in addition give the children who de-
sire it instructions in gardening and
oversee their work. In this connec-
tion the citizen who advocates the
flower and vegetable show thinks
that the project will be a stimulus
to the children, and an incentive to
exert themselves in the direction of
prizes for best results to be judged
at the exhibit, it is believed that much
interest can be aroused. Already one
or two citizens have expressed their
willingness to donate cash prize. Or
winners in their respective neighbor-
hoods, and it is believed that others
will do likewise if the project is un-
dertaken and carried out. These ex-
hibits are held in other communities
very successfully and have had a de-
cided effect in stimulation the cultiva-
tion of vegetables and flowers by the
children during the vacation season.

A History of the Civil War, pro-
fusely illustrated with reproductions
of the \$150,000 Brady War Photo-
graphs, "taken on the spot," is being
distributed to its readers by The
Pittsburg Dispatch. The work is
divided into 16 parts—one part be-
ing furnished each week for only 10
cents with a coupon cut from The
Sunday Dispatch. (If to be sent by
mail, 13 cents and a coupon.)

The first coupon was printed April
7, and the distribution of part one be-
gan Monday, April 8.

The second coupon (for part 2) will
be printed Sunday, April 14 and dis-
tribution of part 2 will begin Mon-
day, April 15 and so on until the dis-
tribution of the 16 parts is complete.
To accommodate those who did not
have an opportunity to get coupon of
April 7, part one will be supplied for
the same price to any who presents
this article instead.

The regular coupon from the San-
day Dispatch will be required for all
sections after No. 1.

The famous Brady War Pictures
alone are worth the price. The work
is highly educational and a set should
be in every American home. Don't
miss this wonderful work. Remember,
it costs only 10 cents a part (13
cents by mail) and a coupon clipped
from The Sunday Dispatch.

THE PRESIDENT'S ECONOMY RECORD

Taft Insists That Government Be Run on Sound Business Basis.

HIS PROGRESSIVE POLICY.

His Personal Efforts to Reduce Cost of Efficient Service Bring Results—Business Methods Applied—Economy and Efficiency Commission Fought by Democrats.

President Taft more than any of his predecessors in the White House has given strict attention to placing the government upon a business basis as regards its receipts and expenditures. Economy and efficiency became one of the cardinal policies of his administration as soon as he entered upon the presidency, and it was well for the country that this was so, for his administration inherited a deficit in the treasury of \$33,000,000, which has now been transformed into a surplus of \$30,000,000. The average citizen and taxpayer will be interested in this fact, because the problem which confronted the president at the outset, although upon a gigantic scale, was similar to that of the ordinary shopkeeper or business man, farmer or wage earner or even housewife who is called upon to make "both ends meet" either in business or in the home.

By law the secretary of the treasury is called upon every year to submit to congress in December the "estimates" of governmental expenditures for the next fiscal year, beginning the following July 1. As congress has to provide the money to run the government, the money has to be appropriated for specific purposes before it can be expended, and if this were not done before the beginning of the fiscal year the machinery of government would stop unless emergency provision could be made.

How Estimates Are Made.

The "estimates" are prepared by the executive departments of which each member of the cabinet is a head. The cabinet officers get the "estimates" in their respective departments from their chiefs of bureaus and then combine them as the "estimates" for the department. The "estimates" from all departments are then sent to the secretary of the treasury to be submitted to congress, and they then become the "estimates" for the cost of running the entire government during the next fiscal year. Upon these figures congress makes the greater part of its appropriations, amounting to more than \$1,000,000,000 annually.

Until 1908 a more or less lax method of making estimates for the annual appropriations obtained throughout the government. The figures sent to congress each year, instead of showing indications of a careful "pruning" all along the line, showed there was a disposition among the departments to vie with each other in getting as large appropriations as possible without considering whether or not the money demanded could be advantageously expended during the coming year. There was no standardization of supplies, and the various departments were paying varying prices for the same article.

What President Taft Did.

As soon as President Taft took office this system ceased. At the outset President Taft impressed upon his cabinet officials the absolute necessity of economy and efficiency in their departments. He admonished them that not a dollar beyond what was necessary to

THE RECALL OF A DECISION.

run the government efficiently in their departments, including a fair margin for progress, which is a part of efficiency in the program of President Taft, should be asked of congress. The effect was immediate. Every department began work at once to investigate its own expenditures and to devise ways and means of curtailing extravagances. The result was that congress received the lowest estimates it had seen in years. This was followed by a reduction in appropriations to correspond, always allowing for the natural growth of the government's activities, which represented a net saving to the taxpayers of the country.

President Taft was not, however, satisfied that all had been done that could be done. He realized that the departments of the government, like individuals, are naturally prone to be proud of their own achievements and by reason of their familiarity with their own endeavors often insisted that their work was more important than the work of the other departments, relatively speaking. In order to correct that evil he asked congress to give him \$100,000 for a commission of disinterested experts to investigate and report on the business of the government, with a view to further economy and efficiency. Thus came into official being the commission of that name.

This commission, among other duties, was directed to prepare the receipts and expenditures of the government on a "budget" basis, which is the system followed by practically all the leading nations of the world except the United States. Under this system it is possible for the humblest citizen to analyze the finances of the government at any time and to lay his finger upon the responsible political party in the event of extravagance or of stinginess. The system under which appropriations for the government of the United States have been made has even defied the experts in their endeavors to unravel the tangled skeins of expenditures, so that it is a fair statement to say that no citizen of this country up to the present time has ever thoroughly understood where his taxes were expended.

The President's Position.

At the present time the Democratic house of representatives is endeavoring to end the usefulness of the econ-

omy and efficiency commission by cutting off its appropriations. In a recent appeal to congress for funds to continue the great work it has begun, which all thinking men and women will approve, President Taft pointed out that the people of the country as a whole are interested chiefly in the following governmental objects: The national defense, the protection of persons and property, the promotion of friendly relations and the protection of American interests abroad, the regulation of commerce and industry, the promotion of agriculture, fisheries, forestry and mining, the promotion of manufacturing, commerce and banking, the promotion of transportation and communication, the postal service, including postal savings banks and parcels post; the care and utilization of the public domain, the promotion of education, art and science and recreation; the promotion of public health and the care and education of the Indians and other wards of the nation. There are many other public questions, of course, but these are the vital and comprehensive ones, and the "budget" is proposed for the purpose of giving information as to the needs of these matters. The president, in order that his policy of economy and efficiency may be concluded and become one of the greatest achievements of his administration—that of placing the government on a business basis—wants congress to appropriate \$250,000 more for the support of the commission now doing that work.

The economy and efficiency commission has already saved to the taxpayers of the country more than \$3,000,000 annually by its suggestions and by the time it has completed its work it is believed ten times this sum can be saved annually to the taxpayers. In the matter of railroad fare for government officials alone it has found that \$12,000,000 was expended in a single year at the highest prevailing railroad rates. At least a fourth of this can be saved by the application of business methods such as President Taft has applied and has insisted shall be applied to all the departments of the government.

PATTERSON ON THE RECALL OF THE JUDICIARY

Thomas Patterson, Esq., one of Pennsylvania's most distinguished jurists, in a recent public address before the Taft Club of Pittsburgh, discussed the proposition of recall of the judges with such clearness and conviction that every man who is going to vote at the primaries on April 13th ought to read what he says before going to the polls.

If any one will write to the Secretary of the Taft Club, 323 Fourth avenue, Pittsburgh, a copy of this great discourse will be mailed him.

In the meantime the following extract will give an idea of the character of Mr. Patterson's address:

Mr. Patterson's Powerful Arraignment

"There is a doctrine which is now being pressed forward with great energy in certain quarters, and that is the recall of the judges. This is so obviously vicious that it is difficult to discuss it. What protection has the individual who happens at the time to be of the minority, if the judge, who decides his case, must consider not what is the law applicable, but what decision will be the most popular? Law, necessarily, is matter of precedent and rule. It would be so under any system of government that is government at all. Men must have rules for governing their conduct that are tried and known. The individual case can only be dealt with in accordance with precedent and principle. To compel the judge to decide the case, not upon the law, but upon what is the popular wish at the particular time would be to absolutely destroy his efficacy as a judge. Majorities do not protect themselves; they protect themselves. It is the minority, the people who at the time are misunderstood or unpopular that need protection, and so many decisions of our judges that were unpopular with the majority at the time they were made have afterward proved to be sound and the correct interpretation of the law. I scarcely need to refer to them. It is for this, among other reasons, that constitutions are framed and judges exist. To destroy this system is to end the stability of our institutions, and to destroy the balance which men rightfully have in the protection of the law.

Tribute to the Judiciary

"It is the fashion now to criticize and find fault with the judges, and the judges are of all men most helpless under criticism, for they may not reply. No one claims that they are infallible, least of all those who daily practice before them. They make mistakes as other men. Nevertheless, I believe the American people will consent fully to a statement that in public life today there is not a body of more loyal and conscientious men—saving always the officers of our army and navy—than the judiciary. For such evils as may exist the remedy is not more politics, but less politics. They should be taken out of politics altogether, as they were in the days of Mason and Tilden, Kent and Livingston. Do not make them come to heel at the call of the politicians."

For copies of this speech and a number of other masterly discussions of questions of the hour call at the Taft Club of Pittsburgh, 413 Fifth Ave., next door to the Hotel Henry. At the same time add your name to the thousands who have already come out for President Taft and his just claims upon us for another term.

The Taft Club of Pittsburgh urges you, regardless of party affiliations or factional alignments, to go into the coming primaries and to vote for those delegates to state and national conventions who are pledged to support the candidacy of William Howard Taft.

Very truly yours,

The Taft Club of Pittsburgh

An old lady and her daughter stopped outside the Lyceum theater to study the announcement concerning the pantomime. "Who's the gal as plays the lover?" asked the old lady. "Jane Eyre," replied the daughter. "Jane Eyre!" exclaimed the old lady in amazement. "Well, what part, for goodness sake, does East Lynne play?"—London Opinion.

For Women Who Care

Of course you use an antiseptic in your family and in the care of your own person, and you want the best.

Instead of what you have been using such as liquid or tablet antiseptics or peroxide, won't you please try Paxtine, a concentrated antiseptic powder to be dissolved in water as needed.

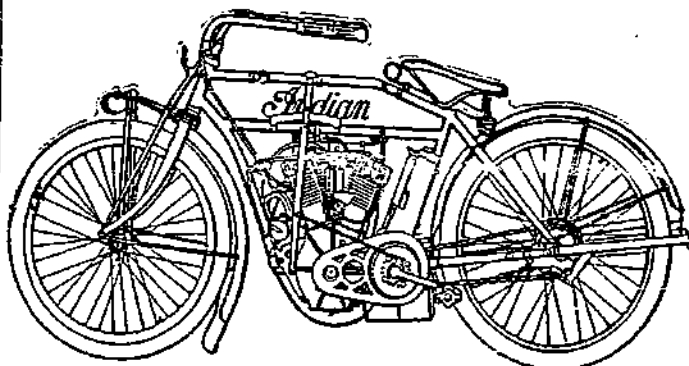

Paxtine is more economical, more cleansing, more germicidal and more healing than anything you ever used.

Paxtine ANTISEPTIC

In the toilet—to cleanse and whiten the teeth, remove tartar and prevent decay. To disinfect the mouth, destroy disease germs, and purify the breath. To keep artificial teeth and bridgework clean and odorless. To remove nicotine from the teeth and purify the breath after smoking. To eradicate perspiration odors by sponge bathing.

As a medicinal agent for local treatment of feminine ills where pelvic catarrh, inflammation and ulceration exist, nothing equals hot douches of Paxtine. For ten years the Lydia E. Pinkham Med. Co. has been regularly advising their patients to use it because of its extraordinary cleansing, healing and germicidal power. For this purpose alone Paxtine is worth its weight in gold. Also for nasal catarrh, sore throat, inflamed eyes, cuts and wounds. All druggists, 25 and 50 cents a box. Trial box and testimony of 31 women free on request. THE PAXTON TOILET CO., BOSTON, MASS.

A SAFE WHITE BRIGHT LIGHT

The light that saves your eyes and saves you trouble. Poor oil cannot give this kind of light, but

FAMILY FAVORITE OIL

the best oil made, the oil that gives the steady light—no flicker, no odor, no soot—costs little more than inferior grades. Triple-refined. Get it from your dealer. It is there in barrels shipped direct from our refineries.

"But how do you find time for all the fun you have, Grace?"

"I work faster than you, of course."

"Work! where have I heard that word before?"

"Precious little in my house. My Bell Telephone does the errand running, the shopping and helps me visit, too."

"Wonderful, isn't it?"

The "MAGIC" Electric Suction Cleaner

Simplest, Lightest, Most Effective, Durable
Vacuum Cleaner Made; Noiseless, Inexpensive

**CLEANS ENTIRELY BY AIR---No Brushes Used on
Carpets, Rugs and Other Fabrics---**

Weights Only 10 Pounds
A Child Can Operate It

CLEANING WITH The MAGIC eliminates all of the fatigue and annoyance of house-cleaning by other means--no need of upsetting the home-moving carpets, rugs, furniture, etc.

WORTH ITS COST for sanitary reasons alone. Millions of germs lurk with the dust in carpets, rugs, etc. It is your duty to guard the health of yourself and family by removing every possible source of contamination.

PAYS FOR ITSELF--saves time, labor and household furnishings. Most of the damage and wear of carpets, rugs, etc. is caused by sweeping, beating and friction of grit and dust underfoot, which cuts and grinds off the fabric and which cannot be removed by broom or sweeper. The MAGIC positively removes all dirt on and in them without injury and prolongs their life. If you haven't seen the Magic, see it demonstrated at the Electric Show or have it shown to you at the store.

The Feeney Hand Machine excels all other hand machines, in ease of operation and amount of suction given. So simple and well built as to be practically indestructible. A good, inexpensive cleaner for those who do not have electricity.

BERRYMAN'S

Almost A Miracle. One of the most startling changes ever seen in any man, according to W. B. Holsclaw, Clarendon, Tex., was effected years ago in his brother. "He had such a dreadful cough," he writes, "that all our family thought he was going into consumption, but safe, reliable and guaranteed. Price 50 cents and \$1.00. Trial bottle free at W. F. Hennings' drug store.

WAIVES HEARING AND GIVES BAIL

With a charge of assault and battery preferred against him by Pascoe Anucon, Daniel Gottheld waived a hearing Tuesday evening before Justice of the Peace E. E. Rice and gave bail of \$339 for a court hearing. Anucon alleges he was attacked by Gottheld. Anucon is a driver for a produce firm.

PREPARE FOR RACE AT DONORA RINK

The one mile foot race at the Donora Skating Rink Monday night attracted the largest crowd of the season and one of the best mile races that was ever pulled off in the valley was the result.

David Sleith of Monongahela carried off the honors and won the handsome gold medal offered by the management of the rink. Joseph Stark of Donora was second and was awarded a silver medal and Thomas Allen of Monongahela was third. The time was 1:40 minutes.

SUES BOROUGH FOR LICENSE FEE

Marian Goldstein, a merchant of Donora, claims that her agent, J. Goldstein was compelled by the borough officers of Donora to pay a yearly license of \$200. This was March 9, 1912. She declares that she pays a yearly mercantile tax and that the borough of Donora has no right to collect such a tax from her. She will try and show in court that she is doing a permanent business and not that of a transient or an auctioneer and should not be subject to the borough ordinance in question.

PLATE GLASS CLUB ORDER IS SIGNED

In the matter of dissolution of the Plate Glass Workers' Beneficial association of Charleroi the court has signed the decree allowing the same. The decree of the court extinguishes the rights of the association forever, but the decree is not to go into effect until a certified copy thereof shall be filed and recorded in the office of the secretary of the commonwealth. It is the intention of the association to dispose of its belongings by auction.

Best He Could Do.

When Ralph Delmore, who was assisting in staging "The Confession," was giving instructions one day to the actors as to what they should wear during the snow storm in the first act, he said: "I want every one to wear their heaviest overcoats during this scene, as it is supposed to be the coldest night in twenty years. Now, don't forget this." Mr. Delmore repeated this order several times to impress it on the minds of the actors, when one of them, undoubtedly new to the stage and who had no lines at all to speak, approached him. "I have no overcoat, Mr. Delmore, but suppose I wear my heavy flannel underwear?"--Kansas City Star.

A German Poser.

That the German authorities can so far unbend as to propound conundrums is only another proof of how little we know our Teutonic relations. In the census papers now being distributed, however, they ask: "If you do not know the date of your birth, how many years old are you?" Which is more humorous and at least as intelligible as "Why is a mouse when it spins?"--London Black and White.

Saving the Waste.

Copper which escapes from a big Arizona mine in waste water is recaptured by placing scrap metal in the water until it is thoroughly coated.

NOTICE
